DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond R Tabandeh on June 08 2005.

The application has been amended as follows:

In abstract, line 1, change "discloses" to - -is- -.

Allowable Subject Matter

2. Claims 1-25 are allowed.

3. The following is an examiner's statement of reasons for allowance: The following is a statement of reasons for the indication of allowable subject matter: The present invention comprises a using the received asynchronous data vector to update weight coefficients of an adaptive filter without prior knowledge of synchronization of the spreading code of binary data. The closest prior art, Parkvall et al. (IEEE, 1996) shows a similar system which is a near-far resistant receiver with a priori synchronization for

asynchronous DS-CDMA systems. However, Parkvall et al. fails to disclose update weight coefficients of an adaptive filter without prior knowledge of synchronization of the spreading code of binary data and using the updated weight coefficients information to determine synchronization of the spreading code as claimed. The distinct features have been added to the independent claims, therefore, rendering them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
